

Hello! My name is Heather Kosmowski and this is my 3<sup>rd</sup> year teaching in the Armada Area School District. Actually, I have been a part of the district for four years as I completed my student teaching at Armada High School. Upon graduating from Oakland University, I was hired as a math and chemistry teacher at the Macomb Academy of Arts and Sciences. After one year at the Academy, I chose to move to the middle school where I could teach math full time.

I have lived in the area my entire life. I am a graduate of Yale High School and continue to live in the Yale School District with my husband Tim, two dogs, and 6 horses. I spend my spare time riding and competing in barrel races with my horses. I have traveled to Oklahoma, Ohio, Indiana, Tennessee, and Canada competing in barrel races and rodeos. I am gone just about every weekend during the summer competing. The picture below was taken on Fourth of July weekend 2010 in Paris, Ontario Canada. This horse is Josie.

I look forward to helping my students succeed in the 8<sup>th</sup> grade academy!
