#### Choose the program that's right for you and your child (must be 5 years old by December 1, 2010)

- ★ **Readiness** – For the "younger" five year old. Academically focused with research-based reading, beginning writing, and math with more "hands on" instruction. The program is designed to provide a strong basis for our traditional Kindergarten program in the subsequent year. Readiness is not a developmental Kindergarten.
- ★ **Kindergarten** – Half-day morning or half-day afternoon program with an outstanding research-based reading curriculum (100% of our Kindergarten students reach "benchmark" for Kindergarten grade level reading skills). Research-based math curriculum and writing program. RTI model in all grades.
- ★ **KinderDay** – Combines our traditional half day academically challenging Kindergarten curriculum with a half day of extended learning in Child Care with a CDA Licensed Child Care Giver. *Nominal Child Care cost of \$820 per school year prepaid. Payment plans available.*
- ★ **KinderPlus** – Extended, academically challenging, full day program with the same certified master teacher for the morning Kindergarten and afternoon academically enriched Child Care portion of the day. Outstanding Kindergarten curriculum combined with enhanced science, math, social studies, and Mandarin Chinese instruction in the afternoon. *Enrichment portion of the day is fee-based at \$1840 per school year prepaid. Payment plans available.*

Children in ALL programs will have piano lab, music, art, physical education, world cultures, media, and computer lab as part of their basic course of studies.
