What is Empower Learning?

Empower Learning is our district’s Learning Management System. Empower will enable students to access “playlists” which can be utilized by students in both face-to-face and virtual settings. Please view our previous document for more information.

How do my student(s) access Empower?

Please refer to the Empower Learning Login document.

What does Empower Learning look like for my child?

Please view this video, created by Mrs. Hughes. The video gives your student an overview of; logging-in, granting access to your armadanow files, the student home screen, how to complete class assignments known in Empower as activities and how to turn in assignments with Empower.

Why does my child still receive the error message “account is not found in the database”?

All students have access to Empower, if your child is still receiving this error message, check their URL bar to make sure they are at https://armada.empowerlearning.net. Using any other URL will direct your child to another school's server.

My child can log into Empower, but has issues accessing classroom files, how do I fix this?

Typically, this is caused by corrupted or incorrect cookies being stored by your web browser. In order to fix browser error, please clear your browser data. This document can direct you on how to clear your browser data.

My student is trying to submit their work but it’s not going through.

Please follow the help document on submitting student work. Also, students must fill in all fields Empower asks for, like Title and Description, if fields are left blank your child’s file will not submit.

Who do I contact to for help with Empower Learning?

For general Empower platform questions or for tech support please contact Mr. Gillett at mgillett@armadaschools.org. For questions involving assignments or a specific class please contact the individual teacher.
