High School and Middle School students will Scan their student ID number on a Scanner to make purchases of meals and ala carte items. Elementary students are identified by name. To expedite service, secondary students should have their ID and money ready when they reach the cashier.

### PAYMENTS

The recommended form of payment for meals is by check or online using a debit/credit card, but cash is also accepted. If sending a payment to the school, please put it in a sealed envelope with the student's name, teacher, amount of the deposit and any special instructions on the front of the envelope. Deposits can be accepted for a family if the individual student names and schools are listed. No change will be given from a deposit. Our point of sale system supports a history of deposits and sales for each student.
